

FLOYD COUNTY COMPREHENSIVE PLANNING

New River Valley Planning District Commission (PDC) begins gathering data and trends for Floyd-Floyd County Planning Commission (2009)

PC invites 60+ non-profits and civic organization to complete questionnaires on their GOALS and PRIORITIES (late 2009)

32 responded; so many wanted a presentation that we did two central ones, one during the day and one in the evening. (Jan and Feb 2010)

Based on those responses and the State requirements of the Comp Plan, we created 7 focus groups: Land and Agricultural; Economic Development; Energy; Health, Human Services and Housing; Solid Waste Management and Recycling; Water, Sewer and Transportation; and Recreation and Wellness. These volunteers met and talked through issues and ideas. (February to April 2010).
