

Floyd County Comprehensive Plan Update
Energy Group Meeting
03/01/10

Major Issues:

- Community Effort approach
- Education of Benefits for Residents and Business Owners
- Energy Audits with Real Action afterwards
- Information Sharing for all parties and stakeholders in the County
- Local Government Buy in, increasing legitimacy
- Utilizing existing Models when developing Energy Plans
- One Stop Shop Organization (completing Audit and then completing work associated)
- Funding (Public versus Private) and the need for Private Enterprise to flourish
- Preparing for Higher Energy Costs
- County Facilities Energy Usage
- Budgeting for these systems
- Energy Generation Income

Programs that can be employed:

- Weatherization Program
- Energy Plan

Technologies that can be employed:

- Bio Mass
- Waste to Energy Systems
- Wind Energy
- Newer Technologies as they become available
