November 15, 2016

News Release:

The County of Floyd has issued a burn ban to be in effect starting 11/16/16 until further notice.

It will be illegal to have any open burns at any time of day due to extreme drought conditions with no rain forecasted in the near future.

This decision was made by the Local Fire Chiefs, Department of Forestry, and Emergency Management, with consensus from the County Government.

This is in the best interest for public safety, and we apologize for any inconvenience.

Thank you,

Kevin Sowers
