

## **PUBLIC NOTICE FROM**

**Floyd-Floyd County Public Service Authority**

**P.O. Box 407**

**Floyd, Va 24091**

**540-745-2169**

The Floyd-Floyd County Public Service Authority has investigated and is continually monitoring best practices, considering the recent outbreak of the Coronavirus (COVID-19) in other parts of the Commonwealth and the United States. Although not required to do so as our water system is a ground water/well system (as opposed to a reservoir or river system) and is considered safe for consumption, out of an abundance of caution the PSA will start chlorinating its water for the next few months. This process will start on March 16, 2020. Our water will continue to be safe to drink and use during this chlorination process, and the PSA will continue to monitor the system and stay connected with State and Federal agencies and notify its customers of any changes. If you have any questions or concerns, please feel free to contact us. We apologize for any inconvenience that this may cause.
